2021 Winter Programs & Development Select Training start delayed

As you are all probably aware there has been a number of COVID-19 exposures in the local schools over the last few days. After consulting with local health and recreation officials SYSA has made the difficult decision to delay the start of both our winter programs and select/development practices until we have an update from the Provincial Health Officer (Friday Feb 5).

Staff have done an outstanding job managing our return to play protocol in recent months but as we open up more practices & programs with volunteer coaches and further players we want to be cautious with all our soccer program planning and delivery. The health and safety of all our players, coaches, staff and the Shuswap community is our priority.

Once we have received updated guidelines from both the PHO and the soccer authorities we will confirm and communicate our plans with club membership, we currently have time available to re-schedule programming when we are in a safe position to do so.

SYSA understands we have a lot of players keen to be back playing soccer and being active in our community and we trust we may be in a position to do so in the coming weeks. Thank you for your continued support and understanding as we navigate our way through these challenging times.
